Israel's Deliverer, Divider of the sea,

Conqueror of Jericho, Jehovah set them free...

Some think of these as fables, with no relevance today,

But God's past power never passed away...

The Great I Am... still is...

The heavens and the earth are His....

He's the merciful Almighty, forever holy

In everything we must remember this....

The Great I Am still is.

To all the walking wounded ones, who seek to make things right,

For stranded souls in darkness, who long to see the light...

For those who tread a troubled road and feel they can't go on,

There's a promise we can stand upon..

The Great I Am... still is...

The heavens and the earth are His....

He's the merciful Almighty, forever holy

In everything we must remember this....

The Great I Am still is.

I can stand in every test,

For the Great I Am still is.

I can lose it all and still be blessed,

For the Great I Am still is.

For I'm a sinner saved by grace because,

For the Great I Am still is.

And I'm not today what I once was,

For the Great I Am still is.....

The Great I Am..... still is...

The heavens and the earth are His....

He's the merciful Almighty, forever holy

In everything we must remember this....

The Great I Am still is.
